Dear Colleague:

There is nothing quite like being a secondary teacher. The multitude of skills we are responsible for teaching students in our one content area is both amazing and sometimes daunting. With increasing demands on our time and all that we're responsible for, it can be challenging and even frustrating trying to keep up with the latest, best practices for enhancing our instruction.

As an experienced and fellow secondary teacher, I have specifically designed this seminar with you in mind! If you are fortunate enough to have Chromebooks, laptops or computers with a Google Chrome browser in your classroom or school, I know that you want to make best use of them. However, despite the array of features that are so readily available, the challenge most secondary teachers face today is in keeping up with essential ways to best use these tools to enhance our instruction.

Not only is Google Classroom an incredibly effective tool – the good news is that there are tons of outstanding, FREE Chrome apps, extensions and other powerful web tools available that are perfect for taking Google Classroom to the next level. I want to show you how these cutting-edge tools can easily be integrated with Google Classroom to excite and engage your students and to strengthen their learning.

I look forward to sharing the best of what works and what doesn't based on my experience using Google Classroom to enhance instruction at the secondary level. I will provide you with a comprehensive list of all the apps I have successfully used with my secondary students as well as tips and tricks to save you valuable time and effort. It is my sincere goal that you leave this seminar excited about returning to your classroom to try out many of the new ideas that you learn!

Sincerely,

Dr. Desiree Alexander

P.S. The emphasis will be on use-tomorrow tools perfect for maximizing the power of Google Classroom to strengthen your students' learning. Plus, you'll receive an extensive resource handbook and special access to my resource-packed Google Classroom to support your success.

"Not only is Google Classroom an incredibly effective tool - the good news is that there are tons of outstanding, FREE Chrome apps, extensions and other powerful web tools available that are perfect for taking Google Classroom to the next level."
